DETAILED ACTION

Claim Objections

1. Claim 27 is objected to because of the following informality: Insert a period at the end of "27". Appropriate correction is required.

Allowable Subject Matter

2. Claims 1 - 30 are allowed. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is that there cannot be ascertained prior art that anticipates or makes obvious the provisions of "...a tactile sensor...sensing bladder side in communication with a pneumatic diaphragm...finger glove...and a mechanical connection" in combination with the other limitations presented in claims 1, 10, 20, 25 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
